

SLOVAK ACADEMY OF SCIENCES

PRESIDENT

Bratislava, 28th January 2021
Ref.: 00530/2021

Dear Academician Zagorodny,

It is with great pleasure that I have received the news that you are celebrating a round anniversary these days. Please accept my sincere congratulations and allow me to wish you every success in your continued role as the President of the National Academy of Sciences of Ukraine. The Slovak Academy of Sciences immensely appreciates your invaluable contribution to the development of science, especially in the field of theoretical physics, with particular emphasis to further development of the theory of Brownian motion of dust particles. Likewise, we appreciate your extensive contribution to the broader participation of Ukrainian scientists in EU programs, in particular, the 7th EU Framework Program and 'Horizon 2020'. Research teams from Slovakia and Ukraine have successfully participated in several projects implemented within these programs and in the framework of our bilateral cooperation agreement.

The Slovak Academy of Sciences has a long-term tradition of fruitful cooperation with the National Academy of Sciences of Ukraine. On this occasion, I would like to wish you a lot of success in your future steps and I do believe that our mutual cooperation will be at least as fruitful as it was until now and for the benefit of the science communities in our both countries, Ukraine and Slovakia.

Yours sincerely,

Prof. Pavol Šajgalík

Acad. Anatoly Zagorodny
President of the
National Academy of Sciences of Ukraine
54 Volodymyrska St.
