Dear Professor Zagorodny,

On behalf of the American Physical Society (APS), we express our support for the people of Ukraine and members of the National Academy of Sciences of Ukraine in response to the invasion of your nation by the Russian Federation.

We express our profound condolences for the loss of life and property. We wish safety and peace for all residents of Ukraine. The APS has issued a [statement](#) condemning the invasion.

Additionally, we are concerned about the long-term impact on the Ukrainian scientific community and facilities. APS will strive to assist scientists in Ukraine, and work with our colleagues in other science organizations, to ensure Ukrainian scientists remain engaged with the global physics community.

APS stands in solidarity with our colleagues in Ukraine. Please know that members of APS are with you in spirit and are here to assist the Ukrainian scientific community during this deeply difficult time.

Sincerely,

Jonathan Bagger
